

HARI PRASATH J

hariprasath@entrans.io

PROFILE

Results-driven Software Engineer with 2+ years of experience building scalable web applications across full-stack environments. Proficient in Angular, React.js, ASP.NET Core (C#), and the MERN Stack (MongoDB, Express.js, React.js, Node.js). Deep expertise in RESTful API design, JWT Authentication, SQL Server, MongoDB, TypeScript, and JavaScript. Adept at crafting responsive user interfaces and delivering robust, maintainable full-stack solutions that align with business goals.

WORK EXPERIENCE

Entrans Inc

Software Engineer

On-Site

May 2024 - Present

- Engineered and enhanced enterprise-grade web applications using Angular, ASP.NET Core (C#), and SQL Server, delivering high-performance, scalable, and maintainable solutions in production environments.
- Collaborated cross-functionally to design, implement, and ship business-critical features — spanning Angular component architecture on the frontend and C# / ASP.NET Core service layers on the backend — with a focus on responsiveness and user experience.
- Championed software quality by applying best practices in debugging, testing, and code optimization across TypeScript and C# codebases, reducing technical debt and improving system reliability.

Zuntra Digital Private Limited

Wix Developer Intern

On-Site

- Tailored and optimized Wix websites — including Entwy.com and Wiviy.com — using custom JavaScript (Velo) scripting, improving page layouts, user engagement metrics, and overall site performance.

PROJECTS

AwardSpring

- Contributed to a full-stack scholarship management web application built on Angular and ASP.NET Core (C#), implementing new features and optimizing existing SQL Server database operations to meet evolving product requirements.
- Designed and built reusable Angular components, integrated RESTful API services, and managed complex SQL Server queries to power application workflows.
- Led performance tuning and debugging across the TypeScript/Angular frontend and C# backend, improving application stability, responsiveness, and user experience.

Portfolio

- Built a personal portfolio website using React.js with CSS and Bootstrap to showcase projects, skills.
- Designed a responsive and modern UI with reusable components and smooth navigation.
- Implemented clean component structure and best practices for maintainable and scalable code.
